

CTS: CloverleafWorld Training Solutions
School of Learning & Development

“...learning for living...”

With an enduring dedication to the pursuit of excellence, CTS: CloverleafWorld Training Solutions offers unparalleled student/delegate experience across a broad spectrum of academic environments in its premium training programs.

As one of three schools at CTS, the School of Learning & Development has courses that allow you to enhance professional skills, prepare for a new career, or pursue intellectual inquiry for personal enrichment. CTS helps:

- Combine a classic curriculum with opportunities for practical training and applied knowledge, priming you for success in academic and professional areas
- Provide focused study in preparation for careers in a variety of competitive fields

Instructors from the CTS School of Learning & Development bring scholarly expertise and real-world experience to on-site and online classes. You study with:

- Scholars, researchers and professionals from lead universities
- Experienced professionals from community and business organisations

At CTS every delegate has an option to select the ideal-fit study mode for their program. There are three study modes for the programs offered at CTS each of which are offered on a Full Time OR Part Time basis. Upon completion of the study program – including an examination/assessment session, a certificate is dispatched to the delegates.

The **Study mode** options are:

1. **Distance Learning (DL) Mode:** under this DL option each delegate is given unique access details (UAD) for their registered course through a CTS portal to follow a schedule determined by the course study program.
2. **On-Site Learning (OSL) Mode:** under this OSL option each delegate is required to attend on-site instructional sessions for their registered course.
3. **Blended Learning (BL) Mode:** under this BL option, each delegate combines the provisions of a DL and OSL Mode where they follow the distance learning process with an option for on-site learning as required.

“...providing training for relevant certifications in conjunction with the needful attitudes and life-skills for career advancement are major objectives and realities at CTS...” – KPMG Manager.

We look forward to welcoming & working with you at CTS!
